MATERIAL CHANGES TO THE GROUP STRUCTURE, INCLUDING AS A RESULT OF A MERGER, ACQUISITION OR SALE OF THE COMPANIES OPERATING WITHIN THE CAPITAL GROUP, LONG-TERM INVESTMENTS, DEMERGER, RESTRUCTURING OR DISCONTINUATION OF ACTIVITIES.

In Q1 2022, the Group expanded its activities on the Cracow market through the creation of Dom Development Cracow Sp. z o.o., the acquisition of BUMA Group companies and the indirect acquisition of other non-controlling interests in Sento S.A.

- Establishment of Dom Development Kraków Sp. z o.o.

On 1 February 2022, the Company established Dom Development Kraków Sp. z o.o., with share capital of PLN 5k, in which it acquired 100% of shares paid up in cash.

Dom Development Kraków Sp. z o.o. was created in order to concentrate our property development operations on the Cracow market within a single business entity. The Company intends to carry out the merger of the development companies acquired from the BUMA Group and the Sento Group with its subsidiary, Dom Development Kraków Sp. z o.o. As at the date of preparation of these condensed financial statements, the process of merging the companies Buma Development 8 Sp. z o.o. and Buma Development 20 Sp. z o.o. (as acquired companies) with Dom Developer Kraków Sp. z o.o. (as acquiring company) is ongoing.

- Acquisition of BUMA Group companies

On 28 February 2022, the Company signed sale agreement with Giovanni Fundusz Inwestycyjny Zamknięty with its registered office in Cracow (hereinafter the "Seller"), whereby the Company acquired 100% of the shares in the following BUMA Group companies: Buma Development Sp. z o.o., Buma Management Sp. z o.o., Buma Development 22 Sp. z o.o., Buma Development 21 Sp. z o.o., Buma Development 20 Sp. z o.o., Buma Development 12 Sp. z o.o., Buma Development 8 Sp. z o.o., while Dom Construction Sp. z o.o., a 100% subsidiary of the Company, acquired 100% of the shares in Buma Contractor 1 Sp. z o.o. (hereinafter the "Transaction").

Prior to the said Transaction, both the Company and the Group did not hold any shares in the aforementioned BUMA Group companies.

Total Transaction's value was PLN 209.5m, of which PLN 151.4m as the total sale price of the shares in the aforementioned companies and PLN 58.1m for the subrogation of loans extended by the Seller to the companies acquired in the Transaction. The assets of the companies subject to the Transaction include investment land in Cracow with the potential to develop 1 370 units, projects under construction with 224 units, and PLN 51.4m in cash, with the PLN 1.9m debt under bank loans.

Through this acquisition, Dom Development S.A. Capital Group expanded its real estate development operations in the Cracow market, where the Group have already operated through the Sento Group acquired in 2021, with a desire to ensure the long-term growth of the consolidated income and profits of the Company.

The Company and Dom Construction Sp. z o.o. paid for the shares in these companies the initial sale price (PLN 151 401k), calculated according to the formula in the share sale agreement. In the agreement, the parties also agreed the manner of calculating the final sale price to account for the revaluation of its net assets at the date of the Transaction. The procedure of setting the adjusted sale price has not yet been completed until the date of the preparation of these condensed consolidated financial statements. The Company preliminarily identified assets and liabilities of the acquired companies and recognised them as at the date of acquisition in these condensed consolidated financial statements in the predetermined amounts.

Details of the roughly estimated fair value of net assets and the initial purchase price as at the date of taking over control have been presented below, however that these figures were estimated prior to the completion of sale price adjustment procedure and therefore that are still subject to change.

Acquisition costs

The acquisition costs in the amount of PLN 3 614k paid by the Group in relation to the aforementioned Transaction were directly disclosed in the consolidated income statement as "other operating expenses".

In addition to this, the Company and the Seller entered into a conditional preliminary agreement for the purchase of 100% of the shares in RSKK Sp. z o.o. for PLN 9.6m, according to which the final agreement for the transfer of title to RSKK Sp. z o.o. may be signed by 30 June 2022, subject to conditions precedent.

- Settlement of the final purchase price of 77% of shares in Sento S.A. and acquisition of the remaining 23% of shares in Sento S.A.

Settlement of the final purchase price of 77% of shares in Sento S.A.

On 1 July 2021, the Company acquired 77% of the shares in Sento S.A., a company with its registered office in Cracow, from Reno Sp. z o.o., another company with its registered office in Cracow. The Company paid PLN 35 379k as the initial sale price for the shares, as calculated according to the formula defined in the share sale agreement.

On 16 March 2022, the parties to the transaction signed an annex to the agreement of 1 July 2021, in which they confirmed that the sale price as in the agreement is final. At the same time, the management of the Company confirmed that the pre-estimated fair value of net assets acquired on 1 July 2021 and disclosed in the Company's financial statements for the twelve-month period ended 31 December 2021 has not changed and is final.

Indirect acquisition of the remaining 23% of shares (a non-controlling interest) in Sento S.A.

On 11 March 2022, Dom Development Kraków Sp. z o.o. acquired 2 014 949 shares of Sento S.A. (representing 6.3% of shares in Sento S.A.) from minority shareholders of that company for a total price of PLN 2 418k.

On 16 March 2022, Sento S.A. acquired 5 289 851 treasury shares (representing 16.7% of shares in Sento S.A.) from Reno Sp. z o.o. for the price of PLN 7 036k for voluntary redemption.

As a result of the above transactions, the Company became the owner, directly and indirectly, of 100% of the share capital of Sento S.A.

GROUP'S INTEREST IN THE SHARE CAPITAL OF SENTO S.A.

Group's interest in the share capital of Sento S.A. as at 1 January 2022	77%
Group's interest in the share capital of Sento S.A. as at 31 March 2022	100%

Put and call share options of minority shareholders of Sento S.A.

Under the agreement to purchase 77% of shares in Sento S.A., the remaining 23% of the shares (hereinafter the "Remaining Shares") controlled by the executives in that company (the "Shareholders") were subject to put and call options. In connection with the said acquisition of the remaining 23% of shares in Sento S.A., a memorandum of understanding was concluded whereby the rights to exercise these options by minority shareholders expired together with the waiver of any claims by them.

Under the memorandum of understanding entered into with Reno Sp. z o.o. as minority shareholder, the Company was bound to pay the compensation of PLN 3 902k to Reno Sp. z o.o. in exchange for the waiver of a claim arising under the put option.

The put option incorporated Company's obligation to redeem non-controlling interests. The obligation to redeem non-controlling interests required to be recognised as liability as at 1 July 2021 in accordance with IAS 32. This liability was recognised in the balance sheet as the acquisition of non-controlling interests was to be paid for either in cash (if the Company exercises the Bad Leaver call option) or by issuing own equity instruments by the Company (if the Bad Leaver call option was not exercised) with the "fixed for fixed" condition not satisfied. This liability was measured at the date of initial recognition, i.e. at the date of acquisition of control over Sento, in the amount of PLN 10 568k.

The effect of the above-mentioned memoranda signed with the minority shareholders was the expiry of put options, which translated into a reversal of the reserve capital on account of the obligation to redeem non-controlling interests, as shown in the table below.

RESERVE CAPITAL AND OBLIGATION TO REDEEM NON-CONTROLLING INTERESTS IN SENTO S.A. - REVERSAL

Reserve capital on account of the obligation to redeem non-controlling interests	10 568
Other long-term liabilities (Liability on account of the obligation to redeem non-controlling interests)	(10 568)

Save for the aforementioned transactions, within the three-month period ended 31 March 2022, the Group did not make any other material changes in the structure of investing in subsidiaries, associates and joint ventures.

7.2 BASIS FOR THE PREPARATION OF THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

These interim condensed consolidated financial statements have been prepared on a historical cost basis.

Certain information and disclosures, which in accordance with the International Financial Reporting Standards ("IFRS") adopted by the European Union (EU) are normally included in annual consolidated financial statements, have been condensed or omitted in these interim condensed financial statements pursuant to International Accounting Standard No. 34, "Interim Financial Reporting" (IAS 34).

The interim condensed consolidated financial statements have been prepared on the assumption that the companies operating within the Group will continue as a going concern in the foreseeable future.

The Russian invasion of Ukraine launched on 24 February 2022 is a factor significantly destabilising the economic environment throughout the region. The Company and its subsidiaries operate exclusively in Poland. The Company's Management Board believes that the war in Ukraine may mostly affect the demand for dwellings, construction costs, and the availability of subcontractors. As at the date of the preparation of these interim condensed consolidated financial statements all of the Company's development projects were progressing as planned or more quickly than planned. The Company's Management Board continuously monitors the situation and analyses its potential impact from the perspective of individual projects, the Company as a whole and the Group, and its long-term objectives. In the opinion of the Management Board of the Company no circumstances that would indicate that there is a threat to the continued activity of the Group are known as at the date of the approval of these interim condensed consolidated financial statements.

The functional currency of the parent company and other companies incorporated in these interim condensed consolidated financial statements is Polish zloty (PLN). The interim condensed consolidated financial statements are stated in Polish zloty. Financial data included in the interim condensed consolidated financial statements are expressed in thousands of PLN unless stated otherwise.

The presented interim condensed consolidated balance sheet, interim condensed consolidated income statement, interim condensed consolidated statement of comprehensive income, interim condensed consolidated cash flow statement and interim condensed statement of changes in consolidated shareholders' equity are unaudited and they have not been the subject of review by an independent certified auditor. These unaudited interim condensed consolidated financial statements do not include all the information and disclosures that are required from annual consolidated financial statements and therefore should be read in conjunction with the audited consolidated financial statements of the Group and the notes thereto for the year ended 31 December 2021.

The Company also prepares interim condensed financial statements for Dom Development S.A. for the three-month period ended 31 March 2022. These statements were approved by the Management Board of the Company on 20 May 2022.

7.3 ACCOUNTING POLICIES

Polish law requires the Group to prepare its interim condensed consolidated financial statements in accordance with IFRS, applicable to interim financial reporting as adopted by the European Union (EU) (IAS 34). At this particular time, due to the endorsement of IFRS by the EU and the activities of the Group, there are no differences in the IFRS policies applied by the Group and IFRS that have been endorsed by the EU.

The interim condensed consolidated financial statements have been prepared in accordance with IFRS applicable in the interim financial reporting (IAS 34) and all applicable IFRS that have been adopted by the EU.

These interim condensed consolidated financial statements are prepared based on the same accounting policies as for the consolidated financial statements of the Group for the year ended 31 December 2021, except for the following amendments to existing standards and new interpretations that are effective for annual periods beginning on 01 January 2022:

- Annual improvements to IFRS 2018 - 2020 introduce improvements to the following standards: IFRS 1 *first-time Adoption of International Financial Reporting Standards*, IFRS 9 *Financial instruments*, IAS 41 *Agriculture*, and examples illustrating IFRS 16 *Leases*. The amendments include clarifications and fine tune guidelines for standards in respect of recognition and measurement. These improvements have not been endorsed by the EU as at the date of these interim condensed financial statements.
- Amendments to IFRS 3 “Business Combinations”. The amendments to this Standard published in May 2020 are intended to update the relevant references to the IFRS Conceptual Framework, without making any substantive changes to the accounting of mergers.
- Amendments to IAS 37 “Provisions, Contingent liabilities and Contingent assets”. The amendments to IAS 37 provide clarifications regarding the costs that an entity is to consider when assessing whether a contract is an onerous contract.

The introduced amendments were scrutinised by the Management Board of the Company and they do not materially affect the Group's financial position, operating results or the scope of information presented in these interim condensed consolidated financial statements.

The Group has not decided for earlier adoption of any standard, interpretation or improvement/amendment, which was published and has not yet come into force.

The following standards and interpretations issued by the International Accounting Standards Board or the International Financial Reporting Interpretation Committee that have not come into force or been endorsed by the EU:

- Amendments to IFRS 10 and IAS 28 concerning sale or contribution of assets between an investor and its associate or joint venture. They remove the existing inconsistency between IFRS 10 and IAS 28. The accounting treatment depends on whether non-cash assets sold or contributed to an associate or a joint venture constitute a business. If the non-cash assets constitute a business the investor discloses a full gain or loss on the transaction. If the assets cannot be classified as a business the investor recognises the gain or loss only in the scope of the shares of other investors therein. The approval of this amendment has been postponed by the European Union as at the date of these interim condensed financial statements,
- IAS 1 *Presentation of Financial Statements*, Amendments to IAS 1 *Presentation of Financial Statements*. The IASB published amendments to IAS 1 which clarify the presentation issue of long-term and short-term liabilities. The published amendments are effective for financial statements for the periods beginning on or after 1 January 2023. These amendments have not been endorsed by the EU as at the date of these interim condensed financial statements.

- Amendments to IAS 1 *Presentation of Financial Statements* and the IFRS Advisory Council's guidance on disclosure of accounting policies in practice. The amendment to IAS 1 requires disclosure of material information on accounting policies as defined in the standard. The amendment clarifies that information on accounting policies is material if, in the absence of such information, users of financial statements would not be able to understand other material information in the financial statements. Moreover, the Advisory Council's guidance on the application of the materiality concept have also been amended to provide guidance on the application of the concept of materiality to disclosures of accounting policies. The amendment is effective from 1 January 2023.
- Amendments to IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors. In February 2021, the Council published an amendment to IAS 8 Accounting policies, Changes in Accounting Estimates and Errors in the Definition of Estimates. This amendment to IAS 8 explains how entities should distinguish changes in accounting policies from changes in accounting estimates. The amendment is effective from 1 January 2023.
- Amendments to IAS 12 "Income Taxes". The amendments to IAS 12 clarify how to account for deferred tax on transactions such as leases and decommissioning obligations. Prior to this amendment, there were uncertainties as to whether the exemption concerning recognition of deferred tax recognised for the first time applied to such transactions, i.e. for which both assets and deferred tax liabilities are recognised. The amendments to IAS 12 clarify that the exemption does not apply and that entities are required to recognise deferred tax on such transactions. The amendments require companies to recognise deferred tax on transactions that, on initial recognition, give rise to equal amounts of taxable and deductible temporary differences. The amendments are effective for financial statements for the periods beginning on or after 1 January 2023. These amendments have not been endorsed by the EU as at the date of these interim condensed financial statements.

The Management Board is verifying effect of the above standards on the Group's financial position, operating results or the scope of information presented in the Group's interim condensed consolidated financial statements. It is not expected by the Management Board of the Company that new standards and amendments to the existing standards could have a significant impact on the interim condensed consolidated financial statements of the Group for the period, when they are adopted for the first time.

7.4 KEY FIGURES BASED ON PROFESSIONAL JUDGEMENT AND BASIS FOR ESTIMATES

In addition to the accounting estimations, when applying the accounting policies in relation to the issues described below, the most significant was the professional judgement and the assumptions made by the management.

BUDGETS OF THE DEVELOPMENT PROJECTS

The decision to purchase real estate (land) is based upon analysis, where the so called "purchase budget" is the major component. This budget is prepared to assess the future profitability of projects. The budgets for these construction projects are updated based on management's best knowledge and experience from when the real estate is purchased. The budgets for all construction projects are verified and updated when necessary, at least once every three months. Updated project budgets are the basis for:

- verification of their profitability and any potential inventory impairment write down,
- preparation of financial forecasts, annual budgets and medium-term plans.

RECOGNITION OF REVENUE FROM THE SALE OF PRODUCTS

The revenue from the sale of real estate (housing units, commercial space, etc.) is recognised at the moment when control over the real estate is transferred to the buyer of said real estate together with the transfer of significant risks and rewards typical to the ownership rights. According to the Company's judgement this occurs at the moment of handover of the real estate to the buyer, which is based on a handover document signed by both parties and subject to the condition that the buyer has made 100% payment of the sale price for the real estate.

SEASONALITY

The operating activity of the Group is not subject to any major seasonality.

EXERCISE OF COMPANY'S SHARE OPTIONS

On 27 January 2022, the Management Board increased Company's share capital from PLN 25 398 422.00 to PLN 25 548 422.00, i.e. by PLN 150 000.00, by issuing 100 000 series AE ordinary bearer shares with PLN 1.00 nominal each and 50 000 series AF ordinary bearer shares with PLN 1.00 nominal each. The issue price of AE and AF series shares was set at PLN 35.00 and PLN 50.00 per share, respectively. The issue of series AE and AF shares took place through a private placement. The purpose of issuing series AE and series AF shares as part of the authorised capital is to enable the Company to fulfil its obligations resulting from:

- Management Option Programme IV for Małgorzata Kolarska, Vice President of the Management Board - Chief Executive Director, concerning 500 000 shares in Dom Development S.A., and

- Management Option Programme V for Mikołaj Konopka, Member of the Management Board, concerning 250 000 shares in Dom Development S.A. (see note 7.22).

The Supervisory Board of the Company agreed to fully deprive the existing shareholders of their pre-emptive right to 100 000 series AE shares and 50 000 series AF shares. The exclusion of pre-emptive rights of the existing shareholders is justified by the fact that the issue of series AE shares is addressed only to Ms Małgorzata Kolarska, as the Participant in Programme IV, while the issue of series AF shares is addressed only to Mr Mikołaj Konopka, as the Participant in Programme V to enable them to exercise their rights under the subscription warrants.

On 1 February 2022:

- Ms Małgorzata Kolarska exercised her share options in the Company by exercising her rights under subscription warrants and subscribing for 100 000 shares. The issue price for the new series AE shares was PLN 35.00 per share.
- Mr Mikołaj Konopka exercised his share options in the Company by exercising his rights under subscription warrants and subscribing for 50 000 shares. The issue price for the new series AF shares was PLN 50.00 per share.

On 3 February 2022, the Management Board of the Company adopted a resolution on the allocation of 100 000 series AE shares to Ms Małgorzata Kolarska and 50 000 series AF shares to Mr Mikołaj Konopka.

These shares were registered by the District Court for the capital city of Warsaw in Warsaw, 12th Commercial Division of the National Court Register on 2 March 2022.

Sp.k. an investment loan of up to PLN 43 500k to partially finance and refinance the net costs of the SenToTu, stage 2 (phases 1 and 2) project and a VAT loan of up to PLN 1 500k to finance output VAT liabilities accrued in connection with supplies of goods and services, which were costs of the SenToTu, stage 2 (phases 1 and 2) project financed by the said investment loan.

The Group recognises the nominal value of the liability under *Loans*, and the interest charged as at the balance sheet date is presented separately under *Accrued interest on loans and bonds*.

Due to the fact that the interest on the loans is correlated to the WIBOR interest rate, the Company's Management Board estimates that the fair value of the loans taken by the Group approximately equals their book value, including accrued interest.

7.13 LEASE LIABILITIES

The following material assets that meet the criteria of IFRS 16 Leases have been recognised in the Group's balance sheet. These are:

- right-of-use of office space (on the basis of lease agreements),
- rights of perpetual usufruct of land.

The Group as lessee recognises lease liabilities as measured at the present value of unavoidable future lease payments, discounted at the marginal interest rates of the Group, and recognises assets arising from the right-of-use at an amount equal to the lease liabilities.

All liabilities arising from perpetual usufruct of land are reported as short-term liabilities as they are to be reconciled through the transfer of title (along with the ownership title to a unit located on that land) to the unit buyer in the period of the "operating cycle". At the date of ownership transfer to the buyer, land-related lease liabilities are reversed from the accounting records.

LEASE LIABILITIES	31.03.2022 (unaudited)	31.12.2021
Lease liabilities, short-term portion, including:	64 138	69 474
liabilities on account of perpetual usufruct right of land	57 821	63 126
liabilities on account of the right of use of office space	6 220	6 220
Other	97	128
Lease liabilities, long-term portion, including:	19 668	21 014
liabilities on account of the right of use of office space	19 452	20 783
Other	216	231
Total	83 806	90 488

In the case of perpetual usufruct right, fees resulting from the period, for which such right to the specific property has been granted (up to 99 years), are discounted. This period does not depend on the period of time during which the Group expects to remain the holder of such perpetual usufruct right, that is on the planned use of these properties for development projects.

As estimated by the Management Board based on property development projects planned on specific land to which the Group held the perpetual usufruct right as at 31 March 2022, out of PLN 57 821k of the land-related lease liabilities recognised as short-term:

- PLN 3 489k is payable by the Group within 12 months following the balance sheet date,
- PLN 4 956k is payable by the Group later than 12 months following the balance sheet date,
- PLN 49 367k is to be transferred to the respective buyers of units.

7.14 DEFERRED INCOME

Payments from customers on account of the purchase of apartments and parking spaces are recorded as deferred income until the time that they are delivered to the buyer and are recognised in the income statement as “sales revenue”. This balance sheet item is closely dependent over time on the relationship between the sales rate (which as it increases, increases this item) and the deliveries rate (which as it decreases, decreases this item).

7.15 SEGMENT REPORTING

The operations of the Group are generally in a single segment and involve mainly the development and sale of residential and retail (commercial) units and related support activities. The Company operates only in the Warsaw market, while Dom Development S.A. Capital Group with the Company as the parent, also operates on the Tricity and Wroclaw markets, and in the Cracow market since 1 July 2021. The operations on the Wroclaw, Tricity and Cracow markets are carried out through the Group’s subsidiaries.

The results of activities in the individual markets are assessed mainly on the basis of sale revenues and profit, and gross margin on sales generated by the individual markets.

In view of the above, segmentation for reporting purposes was made within the Group on the basis of the geographical location:

- the Warsaw segment
- the Tricity segment
- the Wroclaw segment
- the Cracow segment

Financial data grouped together on the basis of the geographical location of the Group’s real property development projects have been presented below.

*) For the Tricity and the Cracow markets, the gross profit on sales results from the financial data of the Euro Styl S.A. Group and Sento Group and does not include the cost of the Euro Styl S.A. Capital Group and Sento Group acquisition that was additionally allocated in the consolidation as resulting from the measurement of inventory as at the purchase date at fair value (see also the comments below).

***) The additional cost resulting from the allocation of the Euro Styl Group and Sento Group acquisition prices. This cost is the difference between the carrying value of the Euro Styl S.A. Capital Group's and Sento Group's inventory and the fair value assessed as at the date when these groups were acquired by the Company. This cost in the consolidated financial statements is adequately recognised as production cost of products sold that was accounted for in the income statement in the specific financial period.

7.20 COMPANY'S SHARE OPTIONS

COMPANY'S SHARE OPTIONS ON ACCOUNT OF THE OPTION TO ACQUIRE NON-CONTROLLING INTERESTS IN SENTO S.A.

On 1 July 2021, the Company acquired a 77% majority stake in Sento S.A. At the same time, pursuant to the share sale agreement, put and call options were granted in respect of the remaining 23% of the shares.

Under the said agreement the Company has a call option to Bad Leaver shares exercisable at any time if a minority shareholder terminates their cooperation with Sento S.A., which means that it is possible for the Shareholder to receive the Company's shares as a result of exercised "ordinary" call/put option only when the Shareholder continues to cooperate with Sento S.A. until the "ordinary" put/call option becomes exercisable. This means that the 'normal' put/call option included an employee benefit item for the minority shareholder, consisting of a payment based on equity accounted shares (i.e. shares of the Company) and that it falls within the scope of IFRS 2. The value of share-based payment transactions in accordance with IFRS 2 was determined as PLN 9 933k.

As described in note 7.1, in March 2022, the existing minority shareholders (whom the said options related to) disposed their shares in Sento S.A. in favour of Dom Development Kraków Sp. z o.o. and Sento S.A. itself.

In connection with the acquisition of the remaining 23% of shares in Sento S.A., a memorandum of understanding was concluded whereby the rights to exercise these options by minority shareholders expired together with the waiver of any claims by them.

In view of the above, the said options have expired and the above-mentioned set value of share-based payment transactions will not be charged to the income statement.

Along with the acquisition by Sento S.A. of treasury shares (for the purpose of their redemption) from Reno Sp. z o.o., the Company also concluded a memorandum of understanding with that minority shareholder on the basis of which, in exchange for the waiver of a claim arising from the offer of the put option included in the agreement of 1 July 2021, the Company undertook to pay a fee of PLN 3 902k to Reno Sp. z o.o.

INCENTIVE PLAN – MANAGEMENT OPTION PROGRAMMES

As at 31 March 2022 there was only one active Management Option Programme adopted as part of the Incentive Scheme for the executives in the Company. The last share options under Programme IV were exercised in Q1 2022.

7.22 MATERIAL COURT CASES AS AT 31 MARCH 2022

As at 31 March 2022 the companies operating within the Group were not a party to any material court cases.

7.23 FACTORS AND EVENTS WITH MATERIAL IMPACT ON THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS OF THE GROUP

IMPACT OF THE ECONOMIC SITUATION ON THE ONGOING COMPANY’S OPERATIONS

During Q1 2022, the Group’s operations continued smoothly and all investment projects proceeded according to schedule, despite numerous challenges in the market environment.

Demand was under pressure from a tightening monetary policy, with interest rate increases negatively affecting credit availability. At the same time, due to rising inflation real interest rates remained deeply negative, encouraging investment of savings in real estate.

A factor which dampened the demand for real estate was Russia’s invasion of Ukraine on 24 February 2022. Surprise and mobilisation to provide assistance to war refugees have made many people postpone important decisions. This has also translated into a drop in interest in buying a dwelling. However, the initial shock has quickly passed and since mid-March demand for housing has recovered.

The influx of people fleeing from war has led to a surge in demand for housing, which became visible first in the rental market and in rents, slowly translating into the secondary market. In the longer term, the influx of such a large population will strongly boost the demand for housing also in the primary market, especially in large cities, where the Dom Development S.A. Capital Group has a well-established position.

In the face of sales slowdown in the market, the supply of housing on the market of the Group’s operations has slightly improved and the market has moved closer to equilibrium after many quarters of the shortage of supply. The structural challenges in the residential market relate to the shortage of investment land and, from the first quarter of the year, strong inflation affecting construction costs. A striking example of price increases could be seen on the steel market, which reached historic prices with significantly reduced availability, due inter alia to the disruption of supply chains from Ukraine and Russia.

The priority in the Group’s business is its profitability. In anticipation of stabilisation of construction material prices, the Company’s Management Board decided to shift the start of construction for some projects from Q1 to Q2 2022. Already in the second half of March, the mood in the market became visibly more relaxed and the availability of key components improved. With the situation calming down, the Group companies contracted the supply of construction materials for the planned projects under conditions which ensure satisfactory profitability. As compared to the industry as a whole, the Group has successfully reduced the impact of increased costs of implementing its real estate projects, thanks to its in-house general contractor companies, which enable cost optimisation without compromising the quality of housing projects developed.

Detailed information on the projects in progress and completed by the Dom Development S.A. Capital Group in Q1 2022 has been presented below.
